

MINUTES OF THE PUBLIC WORKS COMMITTEE
January 22, 2018
Council Conference Room

Present: Councilmembers Rader, Anderson, Bullock

Also Present: Councilmember O'Leary, Public Works Director Beno, one member of the public

Call to Order: 7:00 p.m.

Resolution 8973-17 – Appropriating \$337,000 and authorizing the Mayor to enter into an agreement which will allow the City of Lakewood to participate in the resurfacing of Riverside Dr. from 215 feet North of Riverway Drive to 265 feet North of West Clifton Blvd. in the City of Lakewood with ODOT.

Director Beno discussed the structure of the proposed project which is to resurface a portion of Riverside Drive from approximately West Clifton to Riverway Drive. The majority of the area to be repaved is State Route 237.

Areas from West Clifton to Graber have relatively new pavement and areas south of Riverway are concrete. Neither requires repavement at this time.

The total cost of the project is estimated to be \$337,000 and ODOT-eligible work is valued at \$260,000. Under the terms of the agreement ODOT will pay 85% of eligible costs, or \$221,000. The City's anticipated cost will be \$116,000. The agreement is routine and standard for this type of local project.

The City is managing the design work for the project through a contractor. That work will continue to move forward. Design work is expected to be completed this year. Construction is not planned to begin until 2019. This Resolution addresses the construction portion.

The Committee discussed the retaining wall beneath Riverside Drive. The City has inspected this already. Director Beno noted that any project aimed at enhancing the wall would be the financial responsibility of the City as ODOT would not cover that.

The Committee discussed other projects where ODOT contributed such as the repaving and signalization projects on Detroit. This proposed project is on a relatively smaller scale than past ODOT projects. The project is expected to move along more quickly as the City will bid the project and ODOT will directly pay the contractor.

Director Beno explained the frequency and type of meetings it has with ODOT. Advanced planning is required, as this project was proposed two years ago. The City will meet with ODOT for a pre-project scope review.

A motion was made by Councilmember Anderson, seconded by Councilmember Rader to recommend adoption of Resolution 8973-17 to full Council. All members voted in favor. Motion Passed.

Public Works Committee adjourned at 7:19 p.m.
